

100% REL, Just Smaller TZERO MKIII

REL
ACOUSTICS LTD

Tzero is, in many ways, the most difficult design we have ever executed because never before have we delivered so much for so little. Five coats of your choice of black or white high gloss lacquer as in all Serie T, NextGen Class D amplifiers, our famous High Level Input, plus a separate .1/LFE input stage with its own volume control to get theatre levels AND music perfect without racing to adjust or looking for a remote control.

Tzero MKIII is every bit a true REL, just smaller.

It enriches even modest systems with power and natural bass.

5 coats of polished high gloss lacquer

Redesigned filters for improved output and low end extension

All new anodized aluminium driver
