

Classic 99 Subwoofer

Big, Bold and full of Character

Classic 99 elevates the Classic line with 450 watts of continuous power and a 12" (305mm) long-stroke driver, delivering unmatched performance. Building on the foundation set by Classic 98, it offers enhanced performance, deeper sound, and broader speaker pairing possibilities. The 99 merges mid-century aesthetics with state-of-the-art technology and reliability to deliver an unparalleled auditory journey.

Meticulous Craftsmanship

Every detail of Classic 99 exemplifies refined artistry. The 32 mm thick cabinet walls, dressed in a luxurious walnut veneer, exude timeless elegance. Natural aluminum badges and gracefully curved feet give the impression of the unit floating in space. The down-firing driver coupled with white gold-finished controls underscores its sophisticated design.

Precision and Dynamics

The bespoke 12" driver, crafted from lightweight, hot-pressed paper, ensures exceptional self-damping and dynamic range. Classic 99 generates a vast carpet of bass that envelops the room in a 360-degree wave, offering a deep, detailed, and immersive sound that transforms the listening experience.

Superior Amplification

Powered by a 450W Class D amplifier and featuring an all-analog PerfectFilter™, Classic 99 extends bass response into the low 20 Hz range. The synergy between the amplifier and the driver not only delivers a powerful sound, but also ensures modern reliability, all while preserving the rich detail and vintage warmth that define the Classic line.

Specifications

Type

Closed Box, down-firing driver

Active Driver Size & Material

12 in. (305mm) Amended
Pulp-on-Paper, inverted Cone,
steel chassis

Low Frequency Extension

-6 dB at 24Hz

Input Connectors

High Level Neutrik Speakon,
Low Level (1) RCA, (1) LFE RCA

Output Connectors

N/A
