

THE ESSENTIAL EXPRESSION OF PLANAR

Planar PL-1 Subwoofer

PL-1 is the most versatile introduction to the Planar category, compact, refined, and remarkably capable across a wide range of systems and spaces.

Whether integrated onto the wall or placed within the room on its dedicated Planar Cart, PL-1 delivers deep, articulate bass with clarity and control, enhancing your system without ever overwhelming it.

This is precision without excess. Performance without intrusion.

Tailored For:

- Design-forward living spaces with limited floor placement
- High-quality two-channel systems seeking balance and integration
- Flexible installations including wall-mounted or free-standing use
- Stereo pairs and compact REL 3D systems

Key Technical Highlights:

- Drivers: 6.5" twin active drivers paired with a 10" rear passive radiator
- Amplifier: 300 watt high-speed Class D amplification
- Cabinet: Ultra-slim profile (~5.7") designed for wall integration
- Low Frequency Response: -6dB at 31Hz, in room
- Acoustic Design: Boundary reinforcement via wall coupling for increased scale
- Wireless: Built-in Airship Direct connectivity

Design & Finishes:

- Finishes: Piano Black or Gloss White
- Grille: Cloth grille included
- Optional: Premium Wood grille upgrade

Placement Options:

- Wall-mounted (primary performance configuration)
- Optional Planar Cart-1 for flexible in-room placement

Art of Bass

Without Boundaries

“PL-1 was designed to fit into real rooms and real lives, without ever compromising the integrity of the sound.”

— JOHN HUNTER, CHIEF DESIGNER
